## SEN PROVISION MAPPING INFORMATION

This policy was reviewed: November 2023

This policy will be reviewed next: November 2024

This document contains important information on how special educational needs (SEN) are provided at Godalming Junior School. The SEN Policy has been updated to reflect changes which have come into effect from September 2014.

There are three main stages of provision:

**Wave 1** is the SEN offer available to all. It is universal and part of our daily quality first and inclusive teaching. These needs are addressed in the classroom by our class teachers; every teacher is a teacher of special educational needs.

**Wave 2** provisions are additional, targeted interventions, often provided for a short term and to groups of children with similar needs. The aim of these groups is to accelerate the progress of these individuals in order for them to 'catch up' with their peers. These interventions will be delivered for a specified time period. Children will not have more than two interventions at any one time.

**Wave 3** interventions are provisions often given only to one or two specialist children at any time, with a clear focus on maximising their potential.

In accordance with the Code of Practice 2014, there are four main areas of SEN. These are: Cognition and Learning, Communication and Interaction, Social, Mental and Emotional Health and Sensory and Physical needs. The provision map below addresses how these categories of SEN are represented at each stage or wave
